New Features in the CS500™ Series

- Updated design
- New convertible headset (CS540)
 - Lightest DECT™ headset in the market (21 grams)
 - Up to 7 hours talk time on single charge
 - Elegant magnetic docking and instant mute
- Wideband audio for clear communications
- Conference in up to three additional headsets
- New DECT technology: Up to 100 meters range
- Adaptive power for optimal range and battery life

Lifter and EHS Cable Compatibility

The current HL10™ handset lifter and Savi® Electronic Hookswitch (EHS) cables (sold separately) are all compatible with the CS500 Series bases. The old CS Series EHS cables are not compatible with the new CS500 bases.

Timeline

- **August 2011:** CS500 ships (end-of-life announced for current CS, excluding CS70N)
- **November 30, 2011:** Last order date for current CS
- **December 31, 2011:** Transition complete to CS500

Support Plan for Current CS Family

Plantronics will support spares and accessories for two years after product end-of-life. If product is returned under warranty it will be replaced with the same model while supplies last.
